

RodiCare® Immun

Complementary feed for rabbits, guinea pigs, and small rodents

With echinacea and mumijo

Mumijo contains almost all essential trace elements.

Cape geranium root, hemp-agrimony herb, coneflower (Echinacea) and arborvitae (Thuja) supplement the diet with beneficial plant compounds.

RodiCare® Immun contains the natural substance mumijo, which includes virtually all essential trace minerals. These are needed for a healthy immune system; a lack of trace minerals can weaken the body's defenses.

In addition, **RodiCare® Immun** provides plant-based ingredients that supplement the diet with beneficial phytonutrients. It also contains soothing natural flavorings (ivy extract).

Ingredients:

Echinacea herb, macerated 3%, [hemp-agrimony herb, thuja, Cape pelargonium, Siberian ginseng] macerated 1% each, mumijo 1%, [echinacea herb, hemp-agrimony herb, thuja, Cape pelargonium] ground 0.1% each

Analytical constituents:

Crude protein	0.5%
Crude fat	0.6%
Moisture	97.4%
Crude fiber	0.4%
Crude ash	0.6%
Sodium	0.05%

Additives per 1,000 mL:

Flavorings:

Ivy extract 10 mL

Feeding recommendation:

Give twice daily with food or administer directly into the mouth.

Depending on body weight, feed:

Hamster, degu	0.05 - 0.1ml
Rat, chinchilla	0.1 - 0.2ml
Guinea pig	0.2 - 0.3ml
Dwarf rabbit	0.3 - 0.6ml
Rabbit	0.6 - 0.8ml

Recommended feeding period:

Up to 8 weeks.

Notes:

- Shake well before use!
- After use, please rinse the syringe.
- Store at no more than 25 °C (77 °F) and protect from light.
- Use up after opening.

Shelf life : 24 months

Package size: 15 mL glass bottle with dosing syringe
