

RodiCare® akut

Supplementary feed for rabbits, guinea pigs and small rodents

Regulates digestive processes

Gentian, rhubarb and celandine stimulate digestive functions.

Camomile, peppermint and fennel soothe and relax the bowels.

Blackberries soothe the stomach and intestinal mucosa.

Inactivated yeast encourages the restoration of the natural microflora in the bowel.

Beneficial **flavourings** [extract from milk thistle, artichoke and liquorice root] also improve palatability and digestibility.

In today's diets, rabbits, guinea pigs and small rodents are hardly ever fed the digestive wild herbs that are usually found in the wild.

RodiCare® akut supplements diets low in herbs with valuable secondary plant substances, which naturally regulate digestive processes.

Composition:

Refined vegetable oil [linseed oil, rapeseed oil, sunflower oil, soya oil], inactivated brewer's yeast 2 %, [curcuma, dried peppermint leaves, dried camomile leaves, celandine, fennel seeds, dried blackberry leaves, gentian root, rhubarb root, caraway seeds], macerated 1.5 % each, [dried peppermint leaves, dried camomile leaves, celandine, fennel seeds, dried blackberry leaves], ground 0.1 % each, [gentian root, rhubarb root], ground 0.05 % each

Analytical components:

Crude protein	1.0 %	Crude fibre	0,8 %
Crude oils and fats	54.5 %	Crude ash	0.9 %
Sodium	0.07 %	Moisture	38.4 %

Additives per 1000 ml:

Flavourings:

Milk thistle extract	25 ml
Artichoke extract	15 ml
Liquorice root extract	15 ml

Feeding recommendation:

To be given with food or directly into the mouth.
Depending on body weight

Mice, dwarf hamsters:

3 x daily 0.05 – 0.1 ml

Gerbils, rats, hamsters:

3 x daily 0.15 – 0.2 ml

Guinea pigs, dwarf rabbits:

3 x daily 0.25 – 0.3 ml

Rabbits:

3 x daily 0.35 – 0.6 ml

Notes:

Shake well before use!

Rinse the syringe after use.

Store away from light and not above 25°C.

Use up once opened.

Durability: 24 months

Trading form:

15 ml glass bottle with dosing syringe
